

Create a plain HTML page for B.Sc. Hons CS course, mentioning details like fee, eligibility criteria, papers with names and credits, and future possibilities after the course. A button for styling should be there at bottom of the page. On clicking on this button JavaScript should redesign the complete page using jQuery in a nice presentable way.

HTML:-

```
<!DOCTYPE html>
<html>
<head>
    <link rel="stylesheet" type="text/css" href="8.css">
    <script src="https://code.jquery.com/jquery-3.6.0.min.js"></script>
    <script src="8.js"></script>
</head>
<body>
    <h1>College Student Information</h1>
    <div id="studentDetails">
        <p><strong>Student Name:</strong> Kartikey Sharma</p>
        <p><strong>Roll No:</strong> CSC/21/18</p>
        <p><strong>Department:</strong> BSc.(H) Computer Science</p>
        <p><strong>Batch:</strong> 2023</p>
    </div>
    <button id="styleButton">Style Page</button>
</body>
</html>
```

CSS:-

```
#studentDetails {  
    background-color: #f0f0f0;  
    padding: 20px;  
    border: 1px solid #ccc;  
    margin: 20px;  
}
```

```
#studentDetails.styled {  
    background-color: #0074d9;  
    color: #fff;  
    border: 2px solid #0056b3;  
    border-radius: 10px;  
    box-shadow: 0 0 10px rgba(0, 0, 0, 0.2);  
}
```

JS:-

```
$(document).ready(function () {  
    // Initial styling  
    $('#styleButton').click(function () {  
        // Apply styles when the button is clicked  
        $('#studentDetails').addClass('styled');  
    });  
});
```

College Student Information

Student Name: Kartikey Sharma

Roll No: CSC/21/18

Department: BSc.(H) Computer Science

Batch: 2023
